EXPERIENCE

ZFunds | Fullstack Engineer

Mar 2025 – Present, Gurugram

- Shipped SIP Step-up feature allowing users to increase their SIP investments in regular intervals, **improving user retention and increasing AUM growth trajectory**.
- Engineered direct-to-regular fund conversion feature that **expanded monetization channels** for advisors and platform, driving **incremental revenue growth**.
- Optimized portfolio calculation engine, reducing **resource usage by 60%** and eliminating database outages during peak hours.
- Built backend for client/advisor analytics dashboard, consolidating multi-source data with ClickHouse/Postgres, and automated daily updates via cron jobs.
- Standardized development environment with Docker containerization, reducing onboarding time and **eliminating "works on my machine"** issues.

inFeedo.ai | Frontend Engineer

Oct 2022 – Sept 2024, Remote

- Designed and implemented an **AI Chatbot**, accelerating **employee query resolution by 70%**.
- Collaborated with a **0-1 team** to develop a new product that **generated \$300,000+ in revenue**.
- Developed a multistep communication framework integrating WhatsApp, MS Teams, Slack, and Email, **increasing client communication efficiency by 45%**.
- Engineered a reusable design system using Storybook, **reducing build time by 20%** and improved build quality.
- Built a role-based access control (RBAC) model **improving permission management efficient by 15%**.
- Redesigned the product, **driving a 25% increase in user interaction** and streamline client decision-making.

Accenture | Application Development Associate

Mar 2022 – Jun 2022, Remote

- Streamlined development processes by implementing reusable code, **reducing development time by 35%**.
- Engineered interactive React applications, **enhancing user engagement by 30%**.

Freelance Developer | Software Engineer and UI/UX

Jan 2019 – Feb 2022, Remote

- Published **7 android applications** on the Google Play Store, **accumulating over 100,000 downloads**.
- Sustained an **average user rating of 4.3+ stars** across all applications through continuous user feedback and iterative improvements.
- Generated **over \$6,000+ in revenue** from applications and over **5,000 satisfied customers**.

SKILLS

Languages: TypeScript, JavaScript, Java, HTML/CSS, Kotlin

Framework: React, Next.js, Node.js, Express, Hono, TailwindCSS, Astro

Databases & Platforms : SQL, PostgreSQL, MongoDB, Redis, SQLite, Docker, AWS

Libraries: Prisma, Mongoose, WebSockets, Redux, Jest, React Testing Library, Drizzle

PROJECTS

Neko - Serverless Blogging Website | React, TypeScript, Postgres, NextAuth, TailwindCSS, Prisma, TanStack Query

Sushi - Anime/Manga Tracking App | Kotlin, Retrofit, Hilt, Firebase, Google Billing, MVVM Architecture, Room, SQLite

EDUCATION

Chhattisgarh Swami Vivekananda Technical University
Bachelor of Technology in Computer Science and Engineering

Aug 2017 – Jun 2021
Bilaspur, IN
